

**#earthdayeveryday**

# Sun Printing aka TAKING PICTURES WITH THE SUN!

**All you need is fabric, some paint, and the great outdoor for this fun project where Science meets Fashion!**

**Here is everything that you will need:**

- White fabric or paper
- Paint
- Leaves

## **Directions for Sun Printing Craft**

1. First you wet the fabric and wring it out so that it's not soaking wet.
2. Next, you mix paint and water.
3. You then paint the fabric with the mixed paint.
4. Finally, place the leaves onto the fabric, making sure that they are secure (rocks work great for this!).
5. Lastly, let the sun do its magic!!
