On behalf of students and staff, thank you for your generous donation to Sitar Arts Center. Your contribution enables the Center to provide a rich selection of multidisciplinary arts programs in a safe and enriching after-school program to children and teens in Washington, DC. Sitar Arts Center is founded on the belief that arts education plus high expectations can positively change the direction of young people's lives. Each semester, the Center offers more than 80 classes in music, dance, drama, creative writing and the visual and digital arts and 100 individual instrumental music lessons taught in collaboration with more than 120 volunteer artists and eleven artistic partners. In order to offer high-quality arts education programs and to meet the organizational benchmark that 80% of students are from low-income households, Sitar Arts Center must raise more than \$1.8 million annually to substantially subsidize students' tuition.
